

## Eco Schools Meeting 11<sup>th</sup> May 2015

The committee reviewed their progress since September 2014. We are now working towards our Silver Award.

Actions needed;

Make sure the back door of school is closed at break time to stop all the heat being wasted

Make new rota for class monitors

The eco code is complete need to make an eye catching poster.

We discussed what has gone good and what can be improved upon to ensure that we continue to be an eco-school and have revised their action plan with new targets.

The committee are going to attend an Eco Schools Celebration Event at Harlow Carr on 7<sup>th</sup> July 2015.

**Energy:** Need to continue to reinforce the message to everyone, make sure the classroom monitors know who they are and what their job is.

The door to the playground is still left open sometimes at break time.

**Water:** Everything is in place to monitor the water usage and the committee feel that it is just about continuing the message and making more interesting posters. There is a dripping tap that Mrs Mansfield is going to get fixed.

**Litter & Rubbish** The new bin has been installed so the committee need to check that it is being used.

The paper bins are not being used properly the committee need to ensure that they are properly labelled and reinforce the message.

The committee are going to continue to reinforce the message to everyone in school.
