## **Objectives of the Policy**

At North Stainley CE Primary School we aim to provide all children with an enjoyable learning experience in which they thrive. We offer an inclusive and welcoming ethos which fosters the development of well-rounded individuals.

We believe that all children should be equally valued in school. We recognise that children learn using a diverse range of styles and aim to teach according to individual learning types, recognising different life experiences and needs.

We believe that educational inclusion is about equal opportunities for all learners, whatever their age, gender, ethnicity, impairment, attainment and background. We pay particular attention to the provision for and the achievement of different groups of learners:

- Girls and boys
- Minority ethnic and faith groups, travellers, new arrivals and learners who need support to learn English as an additional language (EAL)
- Learners with special educational needs
- Learners who are disabled
- Learners who are gifted and talented
- Learners who are looked after by the local authority
- Others such as those who are sick, those who are young carers, those who are in families under stress
- Any learners who are at risk of disaffection and exclusion

Children learn through a variety of settings: mixed age classes, single year cohorts, small focused groups and one to one teaching. This variety enables teaching to be differentiated to meet the needs of every pupil in the class. Teaching staff plan and deliver an exciting and stimulating curriculum which engages children at all levels.

## **Philosophy**

The school community believes that:

- All pupils are equally valued and the school has high aspirations for all.
- All pupils are the shared responsibility of all staff.
- All pupils are entitled to a broad and balanced curriculum which is personalised and focused on outcomes.
- Teaching and learning will be adapted to suit the needs of learners and recognise different routes to achievement.
- Early and accurate identification is essential.
- There will be a flexible continuum of provision for pupils with SEND.
- SEND and high needs funding will be used efficiently to ensure good progress of pupils with additional needs.

- Staff will be given appropriate training to allow them to meet a wide range of needs.
- Parents will be fully involved as partners in their child's education.
- Pupils will be encouraged to give their views on what learning is like for them.
- Governors should have access to information which will allow them to monitor and evaluate the effectiveness of the SEND policy.

## **Principles**

A child is defined as having Special Educational Needs (SEN) if they have a learning difficulty and /or a disability which calls for special educational provision to be made or if he or she finds it much harder to learn than children of the same age.

A learning difficulty means that the child either:

a) has significantly greater difficulty in learning than the majority of children of the same age

b) has a disability, which either prevents or hinders the child from making use of the educational facilities which are provided for children of the same age in a mainstream school

Special educational provision means educational provision, which is additional to, or different from, the provision made generally for children of the same age in a mainstream school. (xiii, xiv CoP 2015)

Evidence suggests that approximately 75% of disabled children also have a special educational need and these pupils are also protected by the Equalities Act 2010. Mainstream educational settings must use their best endeavours to secure the special educational provision called for by the child's or young person's needs.

## **Procedures, roles and responsibilities**
